

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME Steven J. Ondersma	POSITION TITLE		
eRA COMMONS USER NAME AG8680	Assistant Professor		
EDUCATION/TRAINING <i>(Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)</i>			
INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	YEAR(s)	FIELD OF STUDY
Calvin College, Grand Rapids, MI	BA	1986-1990	Psychology
Wayne State University, Detroit, MI	MA	1990-1993	Clinical Psychology
Wayne State University, Detroit, MI	PhD	1993-1996	Clinical Psychology
University of Oklahoma Health Sciences Center	Fellowship	1995-1996	Pediatric Psychology

A. POSITIONS AND HONORS**Positions and Employment**

1994-1995 Internship in Clinical and Pediatric Psychology, U. of Oklahoma Health Sciences Center.
 1995-1996 Fellowship in Pediatric Psychology, U. of Oklahoma Health Sciences Center
 1996-1999 Assistant Professor (Research), Dept. of Pediatrics, U. of Oklahoma Health Sciences Center
 1999-2002 Assistant Professor (Research), Merrill-Palmer Institute, Wayne State University
 2001- Assistant Professor, Departments of Psychiatry and OB/GYN, Wayne State University

Other Experiences and Professional Memberships

1996- Member, American Psychological Association
 1996- Member, American Professional Society on the Abuse of Children

C. RESEARCH SUPPORT

Current

1 R01 DA021329 (Ondersma, PI) 4/01/2006-3/31/2010
NIDA
Computer-based brief intervention for perinatal drug, alcohol, and tobacco abuse

This study seeks to modify an existing single-session computer-based motivational intervention and study its use with post-partum women meeting criteria for at-risk drug, alcohol, and/or tobacco use.

1 U49 CE001078-01 (Ondersma, PI) 9/01/2006-8/31/2010
CDC
A computer-based intervention to augment home visitation services

This cooperative agreement with the CDC involves random assignment of parents involved in early home visitation to either treatment as usual or software-supplemented conditions, in which home visitors will augment their usual practice with computer-based interventions as presented in the home using a Tablet PC. This project will develop the software-based intervention and test outcomes over 18 months of follow-up.

DA018975 (Ondersma, PI) 4/01/2007-5/30/2009
NIDA
The WIDUS: Indirect screening for perinatal drug use

This study primarily seeks to develop and cross-validate an indirect screener (that is, one that is not dependent on accurate self-report) designed to detect post-partum women who are likely to be using illicit drugs.

DA021668 (Ondersma, PI) 9/15/2007-9/14/2009
NIDA
A computer-assisted brief motivational intervention for smoking during pregnancy

This study primarily seeks to develop and pilot test a brief computer-based intervention and contingency management intervention for smoking during pregnancy.
